 Sonja Matthews, MT, Executive Director  
 Nikki Garner, MS HCA, Manager Processing/Specimen Resolution/Ref Lab  
 Shelli Lamb, MLT, Reference Lab Specialist

Date: December 19, 2017

**Subject: New Test Offerings – Non-Invasive Prenatal Testing**

RML is pleased to announce the availability of new Non-Invasive Prenatal Tests (NIPT). The newly built tests will streamline the ordering and reporting of patient results which can be transmitted through your current EMR (interface).

Whole blood specimens must be collected in two (2) CellFree DNA BCT™ (Brown/Black top) tubes. A completed Patient History Form must accompany the specimens at time of submission. Necessary supplies can be ordered through RML. Please fax a supply order form to Materials Management at 918-744-3006 or 888-833-0528 to request supplies.

Testing may require prior authorization for some insurance carriers. Please check with your patient’s provider to see if prior authorization is required for payment of services.
