Subject: Continuation of Ampicillin IgE Allergen Testing

RML testing for Ampicillin IgE was halted in August of 2018 due to manufacturing issues. We are pleased to announce that the manufacturer has released Ampicillin IgE reagents and we are able to resume testing. Pricing and TAT will remain the same. Ampicillin IgE will be available as an orderable test individually, or as part of the Penicillin Allergy Panel. See the following for test information:

CPT Code	Order Code	Order Name	Result Code	Result Name
86003	5584775	Ampicillin Allergen		
			5584415	Ampicillin CL
			5584675	Ampicillin CT
			5606925	Allergen Interp
CPT Code	Order Code	Order Name	Result Code	Result Name
